VISITOR'S FIRST VIEW [FRONTPAGE]

The Project .

The current project „European Iron Academy“ is about strengthening craftsmanship education in the field of metal forming across Europe. Forging and metal designers need further continuous training to keep up with developments, to recognise the trends, to respond properly and professionally.

Within the Erasmus+ programme, this project is about making the first steps towards a European Iron Academy to provide a continuous vocational training offer.

short description of the project

connect.
Get in contact with the project partners of the European Iron Academy, if you ...
...are looking for an educational facility for metal forming in your country
...want to register your educational facility in the database

learn.
We work in the field of Lifelong-Learning (LLL) focussing on metal forming education across Europe.

Innovate.
One goal of the Erasmus+ Programme is the valuation of autodidacts by evaluating his or her professional skills through the European Quality Framework (EQF)

Forging & Metal Designers in Europe .

Europe looks back to a great history in metal forming and production. But it still needs to keep pace and push boundaries in the field of handcrafts and metal design. Collecting and connecting resources shall highlight your opportunities in further vocational training as a metal designer.

LEARN MORE

short background

links to project partner portfolios

This project is supported by the Erasmus+ Programme. The participants are from Austria, Czech Republic, Germany, Finland, Italy and the Netherlands. The project „European Iron Academy“ is about strengthening craftsmanship education in the field of metal forming across Europe.

The screenshot displays a website interface for the European Iron Academy. At the top, there is a navigation menu with links like 'Home', 'The Project', 'Project Partners', 'Educational Facilities', 'Process', 'Blog', 'Forum', and 'Search'. The main content area is titled '2nd Meeting - Ybbsitz' and includes a date '20-22 June 2016', a description of the meeting, and a group photo. Below this, there are several document thumbnails, each with a 'Download' button. The documents are: 'Minutes - 2nd Meeting Ybbsitz', 'Presentation - 2nd Meeting Ybbsitz', 'Presentation List - 2nd Meeting Ybbsitz', 'Snowman Organigram - 2nd Meeting Ybbsitz', 'EIA Organigram - 2nd Meeting Ybbsitz', 'Distribution Of Hours - 2nd Meeting Ybbsitz', and 'EIA PP Dissemination - 2nd Meeting Ybbsitz'. A red dashed box highlights the title and keywords of the first document, and another red dashed box highlights the minutes and documents section.

Task: Website-Development
Project: European Iron Academy
Projectnumber: 2015-1-NL01-KA202-008965

The screenshot shows a website layout with a navigation menu at the top: Home, The Project, Project Partners, Educational Facilities, Process, Blog, Forum. The main content area features several news items:

- Forged iron, the Casentino takes part in a European project** (January 25, 2017) with a headline in Italian: "Il Casentino partecipa ad un progetto europeo".
- 4th Lw-meeting in Kolbermoor, Germany. Press release** (January 17, 2017).
- 3rd Meeting of the European Iron Academy in Turku, Finland** (September 20, 2016).
- HEFAISTON 2016** (September 19, 2016).
- HAMMER IN – Blacksmithing Gathering** (July 26, 2015).
- Youth Exchange** (September 15, 2014).

On the right side of the page, there are sections for 'Latest News', 'Archives' (listing dates from January 2017 to September 2014), and 'Project Partner' (listing Kolbermoor, Raaseby, and Ybbsitz).
