

# Website Design

Design in progress 1 - Screenshots

August 10th, 2016

Taskforce „Website“ Joseph Hofmarcher, Thomas Hochstädt

## DESCRIPTION

### General Task „Website“:

During the 2nd meeting of the European Iron Academy (in this document further short „EIA“) in Ybbsitz, the consortium decided that a taskforce „website“ (Joseph Hofmarcher & Thomas Hochstädt) of project member Tannhäuser-Schmiede will be occupied with the design and building of the representative, informative and attractive Website for the EIA. The minutes of meeting 2 document well, what the project members want the website to be like and what the conditions are.

Authorised by meeting 2, the contact person of project member Tannhäuser-Schmiede, Joseph Hofmarcher contracted the design office „Vierfarbig - Grafik Design“ with designing and programming the contemporary website in close communication with the contractor.

This document shows the work in progress by specific screenshots of the website under construction.

Project member Tannhäuser-Schmiede proposes to do a short tutorial in managing and editing the website to all project members.

### Technical Data:

The contemporary system for websites, as used also in the EIA-website, is based on CMS (content manage-

ment system). Unlike the difficultly manageable HT-ML-System (p.e. Ring-homepage,...), in CMS it is rather easy to add and update the contents and informations, comparable to social media interfaces like Facebook.

The principal aim of the website is to display the project and the project outputs.

### Suggested Schedule:

- before Ring-Assembly (by Aug. 18th):  
website under construction online, to observe progress and check functionality.

- login data handout (by latest Sept. 1st):  
handing out login-data to all project members. From that point all project members are able to fill in content (IO1) into the website.

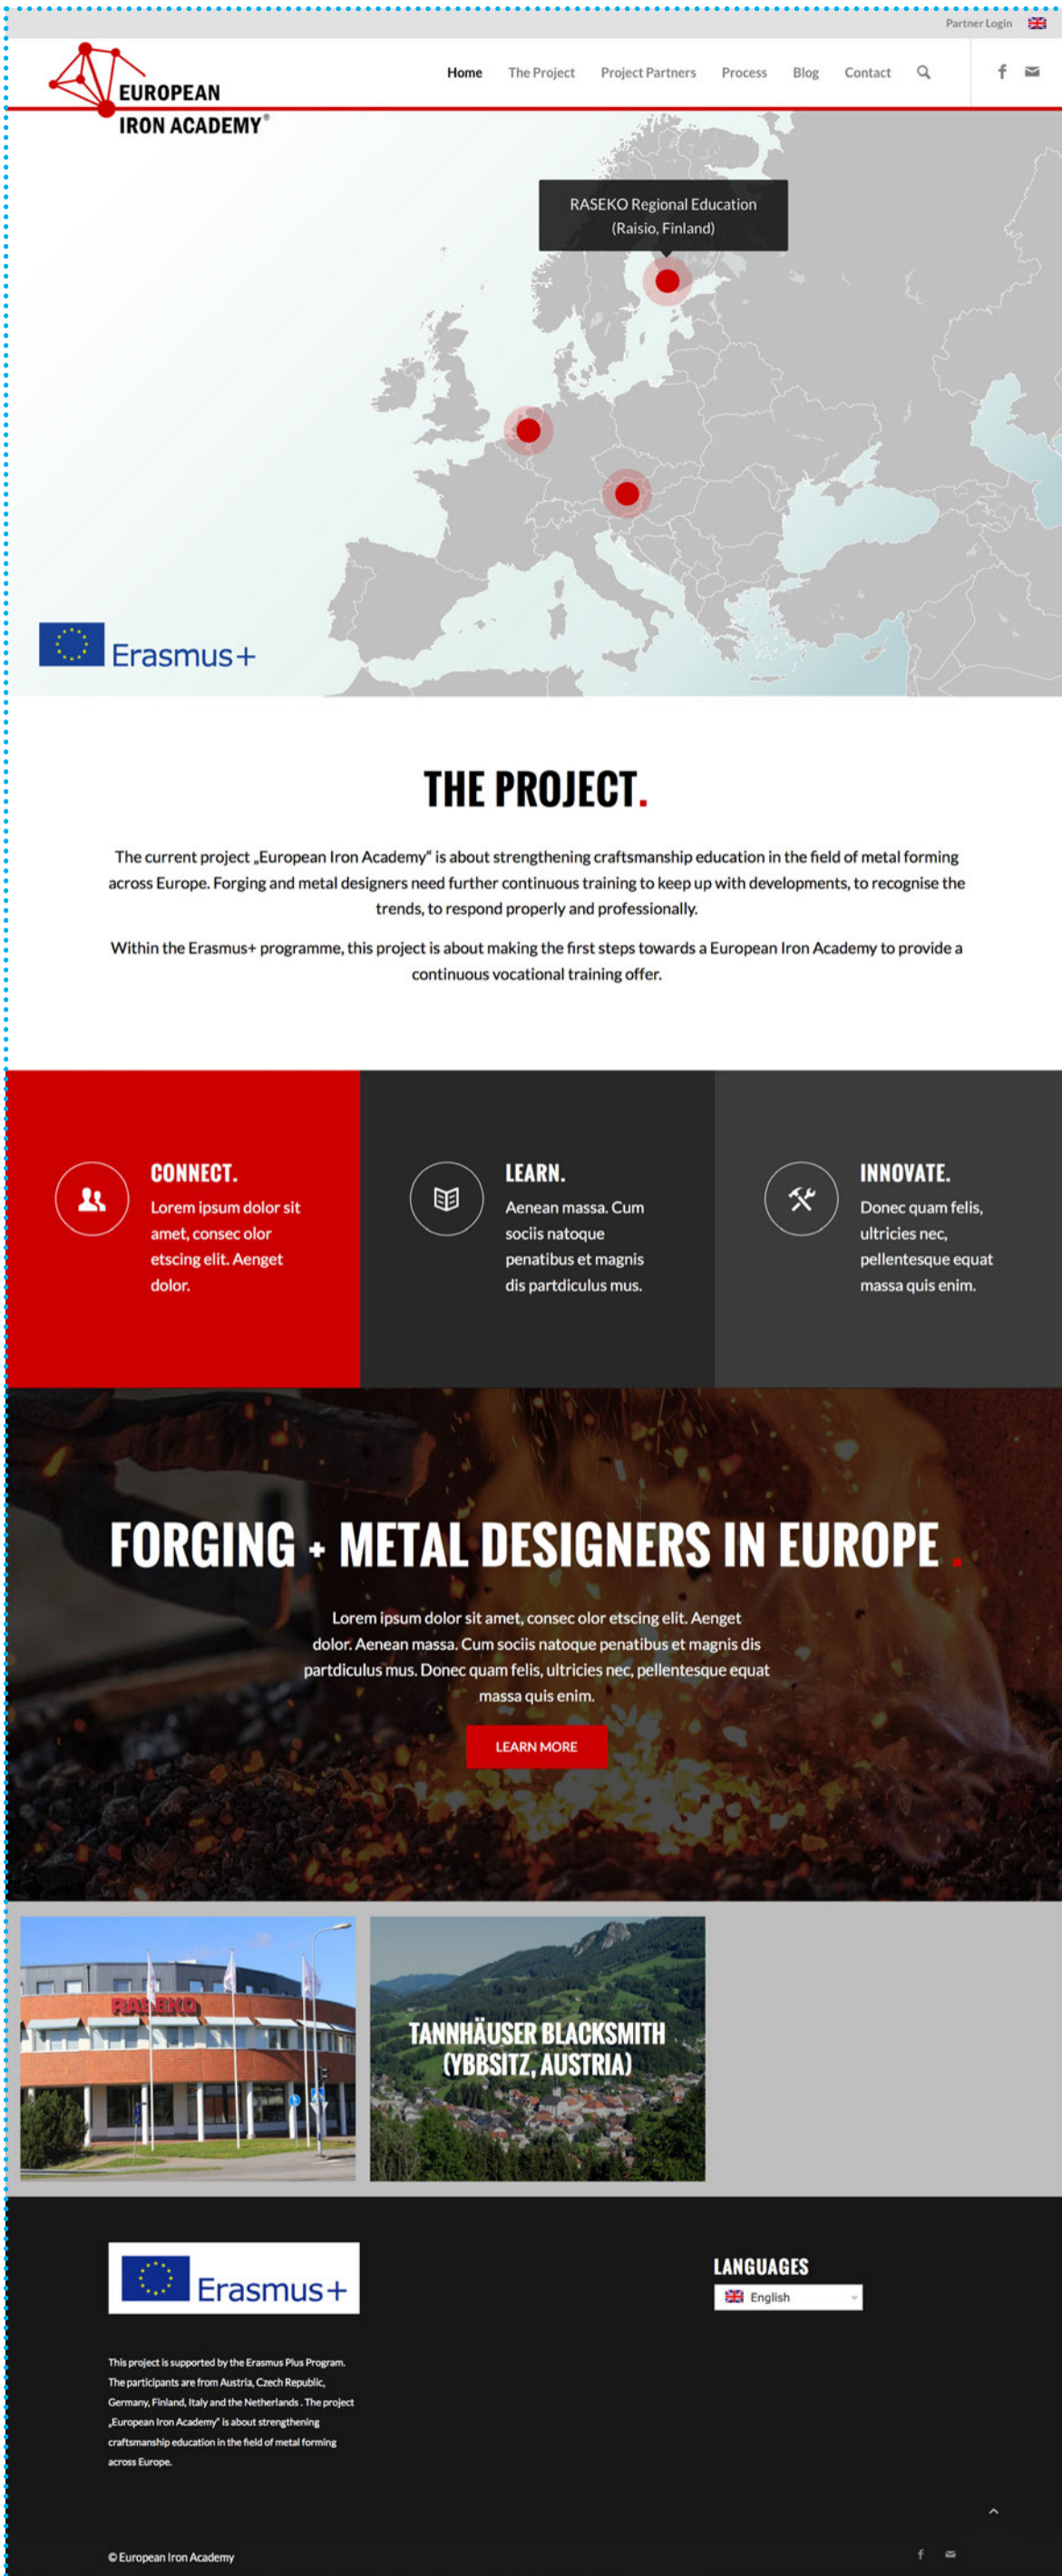

- collective troubleshooting 1 (until Sept. 16th):  
All project members please check online underconstruction website on functionality and give feedback to Joseph by Sept. 16th.

- Meeting 3 in Finland (Oct. 3rd to 5th):  
beamer-tutorial by Joseph, introducing all editing functions of the website.

I am anytime available for feedback or to answer questions. Just contact me via E-mail: [j.hofmarcher@gmail.com](mailto:j.hofmarcher@gmail.com)

Thank you for your confidence,

Joseph

HEADER  
WEB-Logo / Navigation-Menu

PRINCIPAL START PAGE

Interactive Map of Europe.

Hovering over a red dot the name of an educational facility appears (see here „RASEKO,...“)  
Clicking a red dot brings you to the „portfolio“-page of a project member, or of an educational facility.

Red dots will be added for every new educational facility that is added during IO1. Following the visual network will grow.

Erasmus+ Logo is included within the first browser-view of the website.

short and handy description of the actual project (extracted from the comments of the National Agency as reaction on the project-application)

for every visitor it is immediately clear what this website and the project basically is about.

OPTIONAL

we are working on transforming these placeholders to a valid component of the EIA-website

IMAGE & SLOGAN  
including a link to a sub-page of the website (p.e. a specific educational facility,...)

BOX MATRIX of all 7 EIA project members.  
clicking on one of those boxes, you are directed to the subpage/portfolio of the institution.

FOOTER

clicking on one of those boxes, you are directed to the subpage/portfolio of the institution.

# Website STARTPAGE

WEB-CONTENT-EDITING-RESPONSIBILITIES

START PAGE  
further management of the start page shall remain within the responsibility of the taskforce „website“ (Tannhäuser-Schmiede)

SUBPAGES  
Portfolios of project members and educational facilities shall be managed, updated, added, by the responsible project member.  
p.e.: Raseko, Fin is responsible for educational facilities from Estonia, Finland, Latvia, Lithuania, Sweden.

This management approach is likely to become the major tool towards fulfilling the intellectual output 1 (IO1) in collecting and visualising all institutions and further make it a „Inventory report of content and level of the education“ (from the application form, p.31)

# 2ND MEETING - YBBSITZ

20-22 June 2016

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Aenean commodo ligula eget dolor. Aenean massa. Cum sociis natoque penatibus et magnis dis parturient montes, nascetur ridiculus mus.

Donec quam felis, ultricies nec, pellentesque eu, pretium quis, sem. Nulla consequat massa quis enim.

HEADER (WEB-Logo / Navigation-Menu) follows while scrolling down the page

# Website PROCESS DOCU SUBPAGE

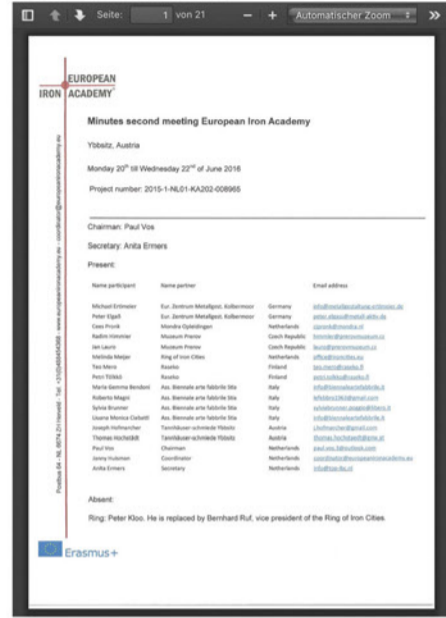

SUBPAGE „PROCESS, MEETING 2“

Title, place, date  
A short description of the major content of the meeting  
An actual group picture or representative image.

MINUTES INTEGRATED

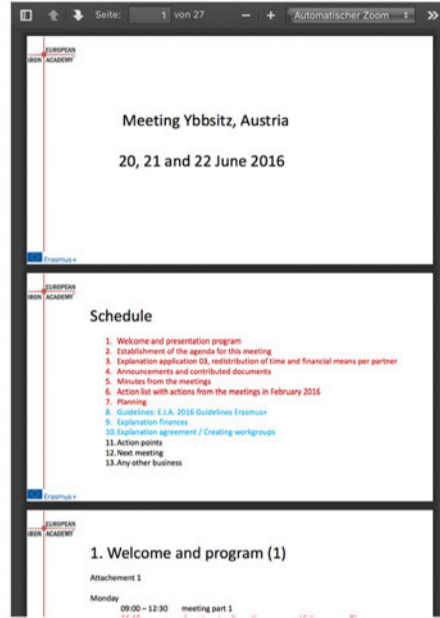

The minutes per each meeting are integrated as a PDF  
-> directly readable in the browser, downloadable and printable.

# Website PORTFOLIO SUBPAGE

HEADER (WEB-Logo / Navigation -Menu) follows while scrolling down the page

PORTFOLIO-PAGE  
Every project member and every evaluated educational facility receives a portfolio page which includes all data about the selected institution.

- this example:  
RASEKO as project member and educational facility is represented by
- a principal image foto
  - the name of the instituion
  - full address
  - website-link
  - logo of institution

WEB-CONTENT-EDITING-RESPONSIBILITIES

START PAGE  
further management of the start page shall remain within the responsibility of the taskforce „website“ (Tannhäuser-Schmiede)

SUBPAGES  
Portfolios of project members and educational facilities shall be managed, updated, added, by the responsible project member.  
p.e.: Raseko, Fin is responsible for educational facilities from Estonia, Finland, Latvia, Lithuania, Sweden.

This management approach is likely to become the major tool towards fulfilling the intellectual output 1 (IO1) in collecting and visualising all institutions and further make it a „Inventory report of content and level of the education“ (from the application form, p.31)

- legal representative
- contact person

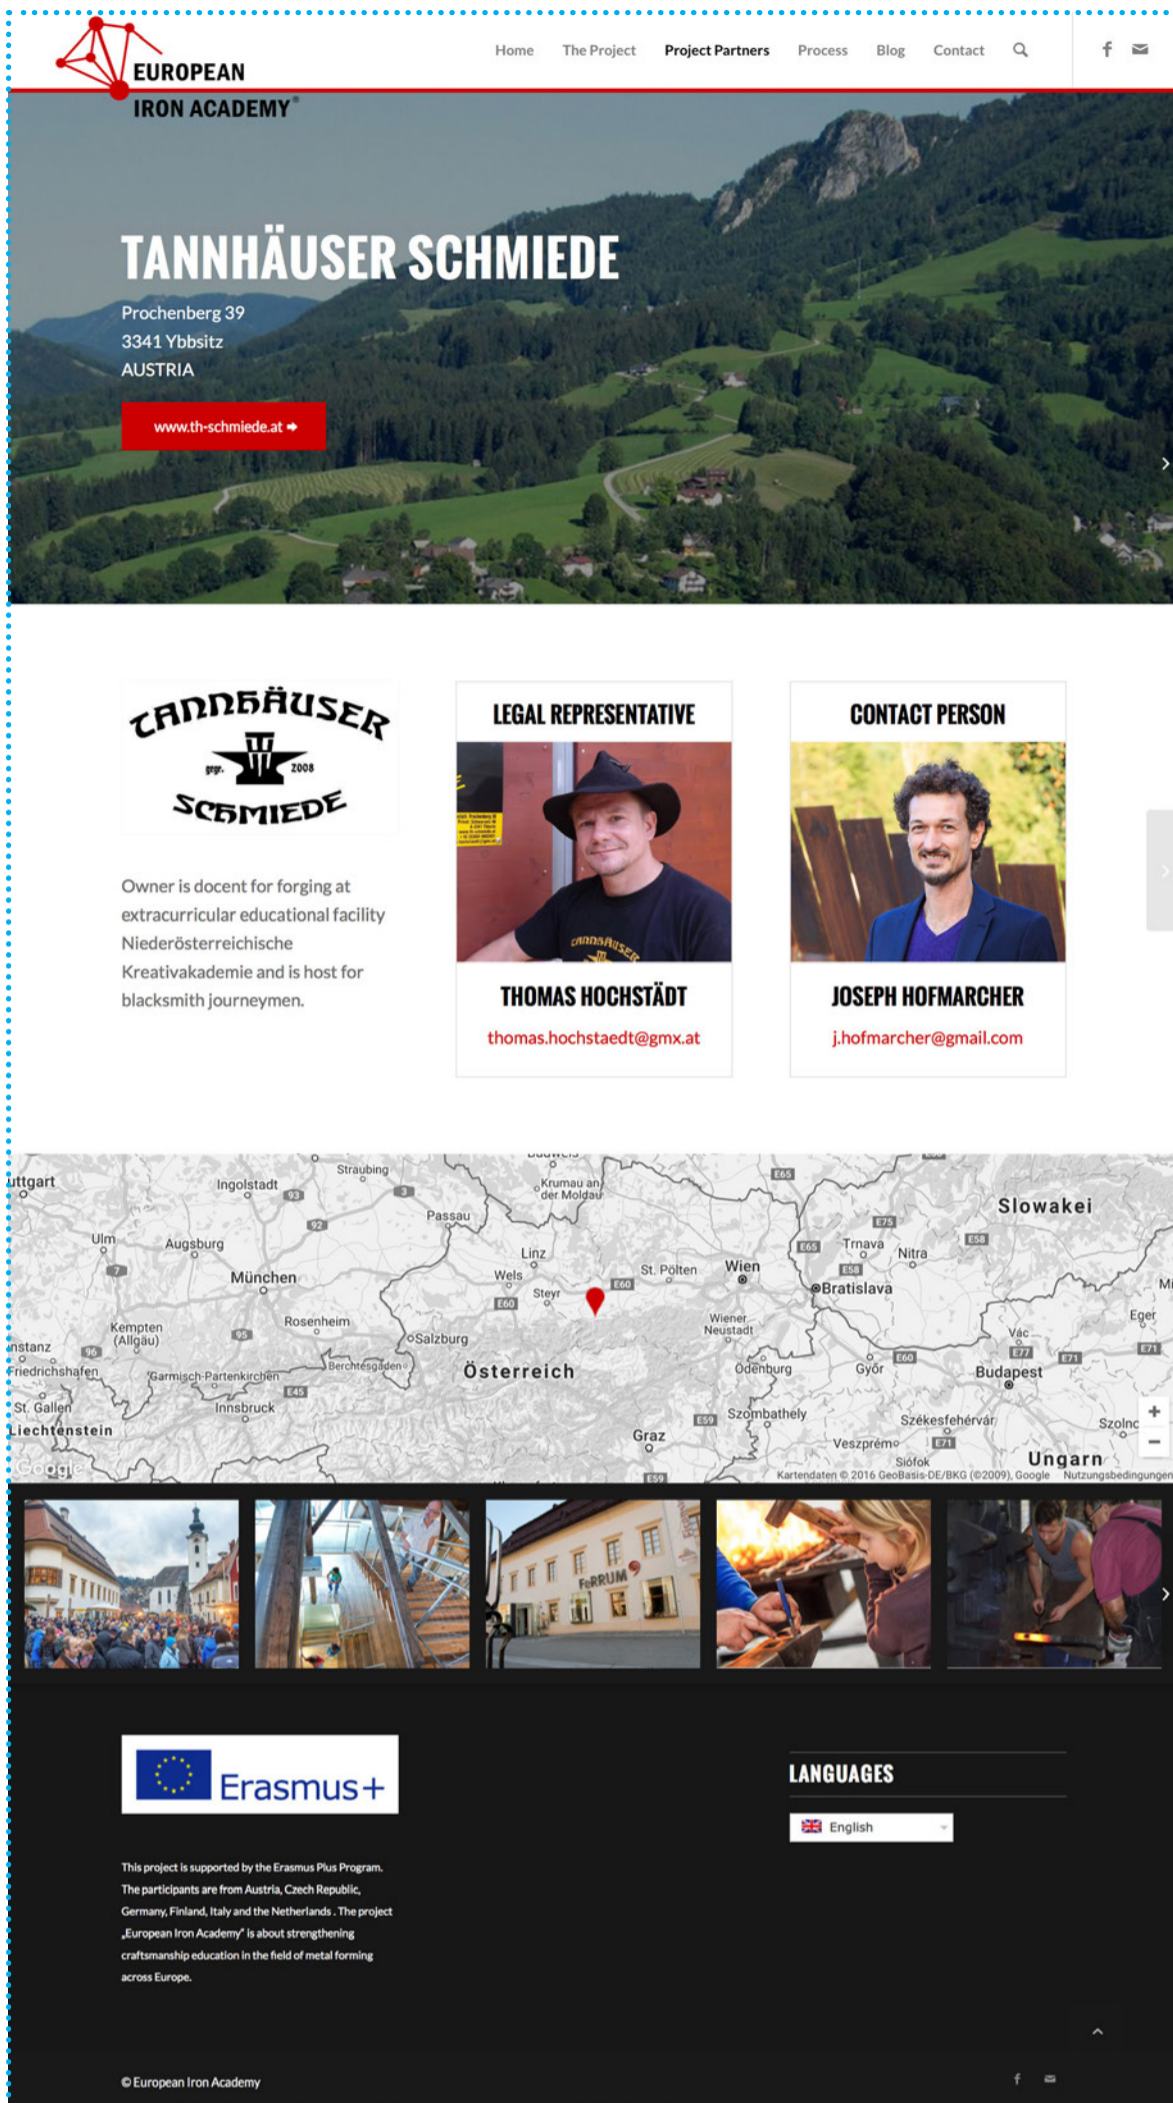

- the content according to the so-called „Guidelines“ in text format.

alternatively we are working to find a good integrateable system to manage the complex data matrix.

- an interactive map to represent the location

- further representative images of the instituion, the place, ecc.

Application Form

Call: 2015

KA2 - Cooperation for Innovation and the Exchange of Good Practices  
Strategic Partnerships for vocational education and training

Form Version: 2.05

	Europäisches Zentrum für Zeitgemäße Metallgestaltung in Kolbermoor
	Ring of the European Cities of Iron Works
Output Identification	O3
Output Title	Website
Output Description	During the first two years, the new website for the European Iron Academy will be an essential platform for a (virtual) iron academy and is also visible for and in the EU. It will help to collect blacksmith traditions and specific forging techniques in the European countries. Then it will be easier to disseminate and discuss the knowledge which compares various kinds of techniques and cultural aspects. It is also important to gain students and show them how important this profession has been and should be in the future. The website will also be used as a way to publish the intellectual outputs or interaction with the cooperating partners outside this project like businesses, branche organisations, schools and students.
Languages	English
	German
Media(s)	Website
Activity Leading Organisation	Mondra Opleidingen bv
Participating Organisations	Raisio seudun koulutuskeskus
	Muzeum Komenskeho v Prerove, p. o.
	Tannhäuser-Schmiede
	Associazione Autonoma per la Biennale d'Arte Fabbriile
	Europäisches Zentrum für Zeitgemäße Metallgestaltung in Kolbermoor
	Ring of the European Cities of Iron Works
